PROJECTS AND CASE STUDIES

===

Adore(A responsive flow for pet adoption)
Adore is a website flow for adoption of pets.It guides you through
the adoption process and helps you in becoming a good and ready pet
parent.It also provides additional details about medical centres and
what to do in cases of emergencies.It helps you find a compatible
pet and helps you to make your pet feel comfortable.

Vera (A mobile app for art galleries)
Vera is a ticket booking and audio tour app for art galleries.It
additionally shows galleries nearby and allows you to bookmark art
pieces,art exhibitions.It gives you an overview of activities you
can engage in at the gallery.It also has an art scan option which
scans and identifies art pieces.This project is designed as an app.

A educational and interactive platform for students
https://github.com/madpro25/hackfest-2022   (Group Project)

Through machine learning algorithms,a system is created which
recognizes faces of the students to mark their attendance. To ensure
